

If I could see!

C P Pathakk

Bihar

If I could see, how ceaselessly you long for me
I would not let the death win over,
If I could see,
Those thirteen days
When I died.

Detest, hate, despise I do
Now love and care have taken place instead,
If I knew, how madly you like me
I would not let the death withered my soul,
If I could see,
Rolling tears in your swallowed beautiful eyes.

Cacophonous tone you had once for me
Unknown to the song of life you sing
And utter the wish
For my happiness and life.

If I could see,
How you love me with silence act
My soul is palpated to go back
In the body that has turned into ashes.

If I could see
Your love before departure
From your world to mine now.
